OUR MANIFESTO.

Ten points that show how we think and work.

CHANGE.

Change is our business. We play in the Champions League and push each other to perform at the top.

RESULTS.

Perfect results for the client matter, not the perfect process. The job is done when it's done.

STRAIGHT TALK.

Break the rules, fight inertia. Trust has to be earned. The shortest path is honesty.

TEAM.

It can get tough. We stick together. Personal ambition steps back behind the team. Always on the offensive.

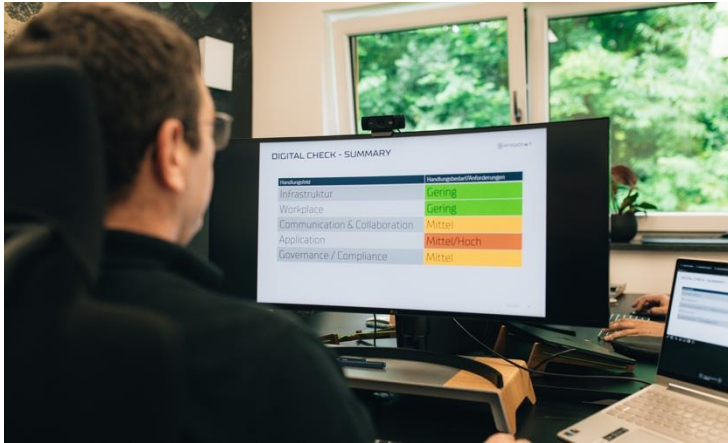

WHO WE ARE.

Substance, not show. Straight talk, not slogans.

WHAT WE TAKE OFF YOUR PLATE.

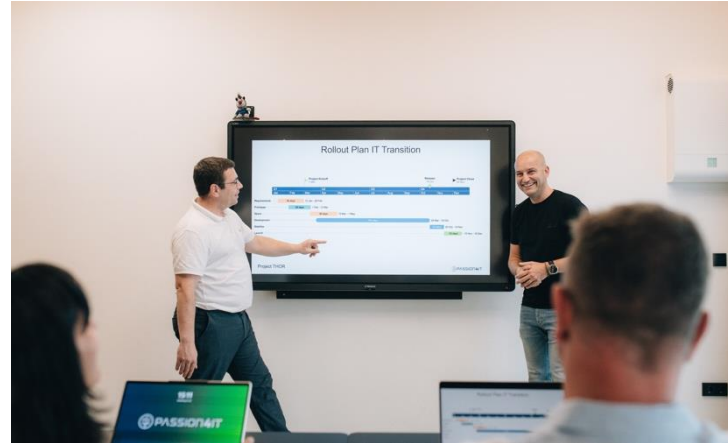

Six services that fit cleanly together.

1

DIGITAL CHECK

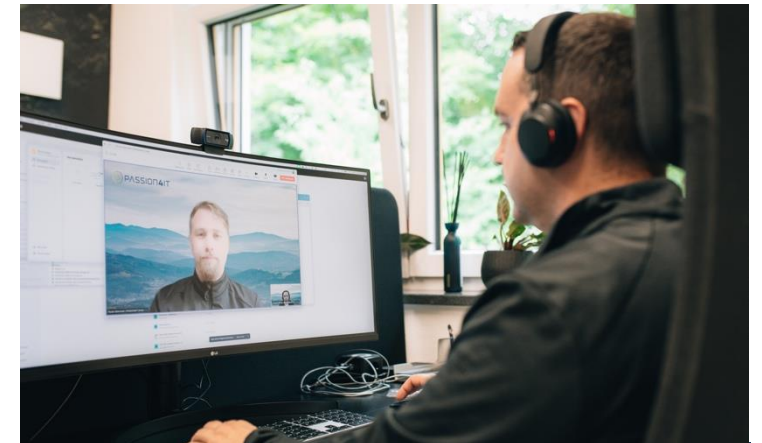

A structured assessment of organization, processes, and IT. Delivers a prioritized roadmap. BAFA-funded.

2

DIGITAL WORK

Modern collaboration on Microsoft 365. Clear rules, lived standards, real adoption across the team.

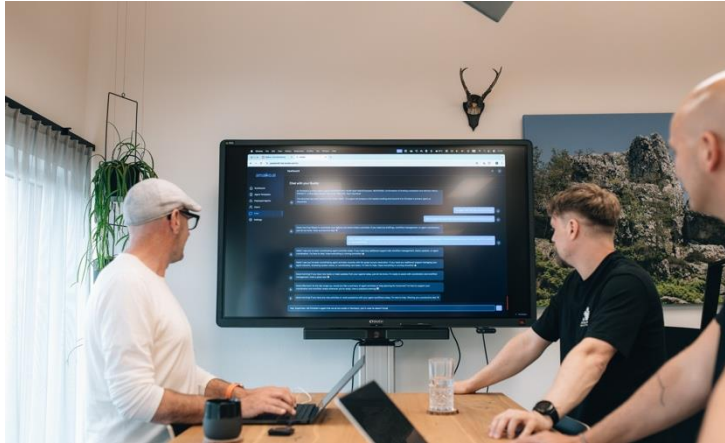

3

TRUSTED LEADER

Fractional CIO and strategic IT leadership. Real ownership instead of recommendations from a distance.

AND THERE'S MORE.

IT projects, AI with substance, and capability for everyday work.

4

IT PROJECT MANAGEMENT

Scope, steering, change, and rollout. We get projects not just started, but finished.

5

AI ADVISORY

Honest assessment instead of hype. AI readiness check, use cases, roadmap. Vendor-independent.

6

ACADEMY

Compact training for digital work, AI, and cyber security. 20 to 30 minutes, directly applicable.

WHY DIGITAL TRANSFORMATION FAILS.

It rarely fails because of the technology.

01

Too many isolated initiatives, no overall picture.

02

Too little ownership at the management level.

03

Too much activity, too little clarity.

04

Too little enablement in daily work.

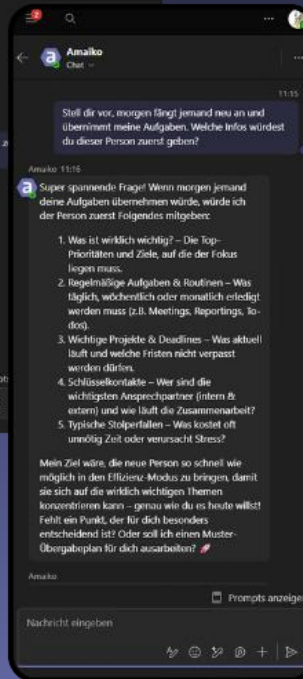

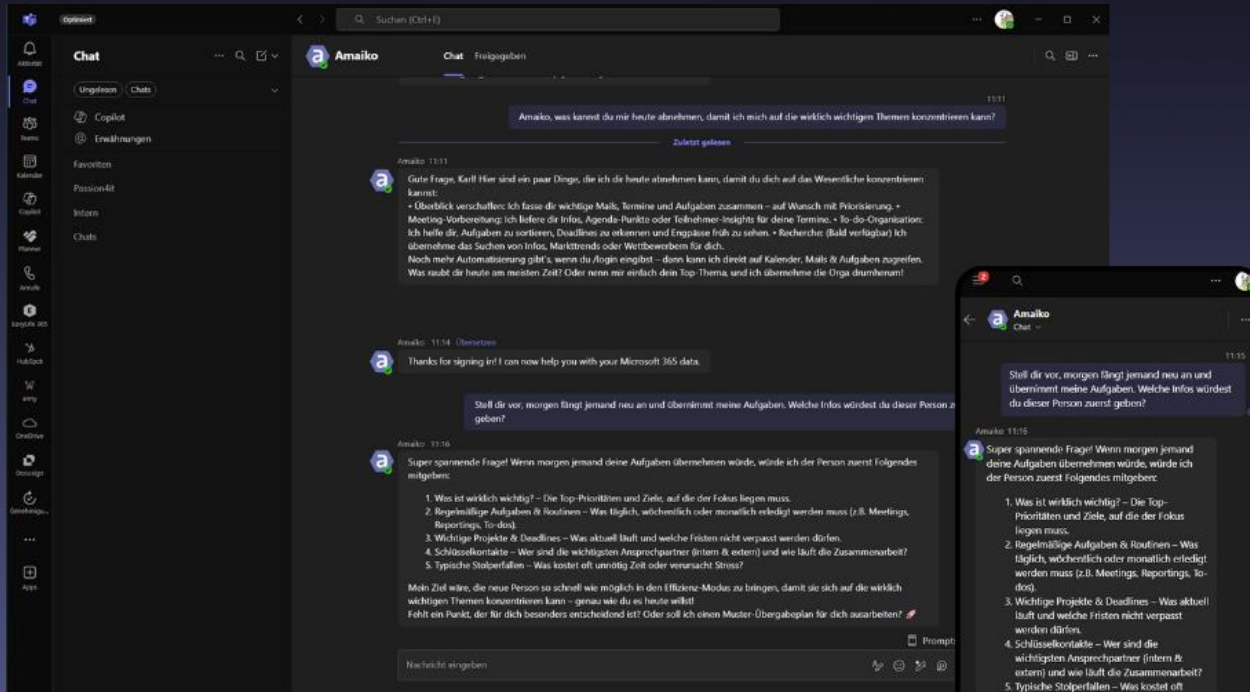

05

Too many projects that never reach a clean finish.

Digital transformation fails because of people, processes, and leadership – not software.

AMAIKO.AI

Our sister company for AI in everyday work.

A Teams-native AI assistant for the mid-market. amaiko lives where your teams already work – in Microsoft 365. GDPR-compliant, with a multi-agent architecture that takes on real tasks.

What amaiko delivers:

- brings knowledge from emails, chats, and documents together
- supports prioritization and decisions
- automates recurring workflows

Target: mid-market companies with 50 to 500 employees.

100+ CLIENTS ACROSS DACH.

Trust is built on results, not on claims.

LET'S TALK.

If you're serious about digital transformation, get in touch. No buzzword call. No sales pressure. Just an honest conversation about what will actually move your business forward.
